AT GARDNERS

For cabinets that shall be finer than any made in this county at any price outside of our gallery or cost you nothing.
We are no pains in trying to give every person the very best and most artistic pose, as each face must have a position peculiar to itself.
I have secured the services of Miss Nellie Munser, as retoucher, for an unlimited space of time, who is now an expert in the business, and we particularly call your attention to the fine and artistic work which she is now putting on each face. We simply defy competition in this line.
We ask that you compare our pictures with others of the same price, and you will see that there are no scratches, blotches, freckles or lines on the face. We make a specialty of baby pictures, groups and hand made portraits, in ink, crayon or water colors. We are putting a new glass finish on our cabinets that cannot be excelled in the state of Ohio. Call and see them.

GARDNER
Keeps NO tin-type shop but will make you one hundred photographs for one dollar, or two dozen Minette Photos for one dollar, which beats all the pictures made. See sample in street show case.

GARDNER
Does not throw in any visiting chromos, but instead will give you quality and fine finish that none of them can DOWN. Call in our gallery and see for yourselves.
We guarantee satisfaction and absolute permanence in all work we do, from the smallest photo to a life size portrait.
We invite everybody to call and examine our work whether you want to buy or not. We are here to stay and mean just what we say.

G. W. GARDNER.
